Hygiene that doesn't cost the Earth

Hygiene that doesn't cost the Earth

On-site generators of disinfectants, sanitisers and cleaning solutions

eWater replaces harsh chemicals with a sustainable generation and refill solution for an unlimited supply of disinfectant, sanitiser and cleaner.

Utilising safe and effective electrolysis technology, the eWater Hygiene System is an onsite and on demand generator of disinfectant, sanitiser and cleaning solution. Cost effective and secure, eWater reduces your reliance on packaged chemicals and reduces chemical expense.

Supporting Healthy Environments

eWater is produced using no synthetic or volatile chemicals. Solutions are non-toxic, require no PPE to use, don't require mixing or dilution and do not leave any chemical residue after use.

Replacing the need for endless consumables, eWater helps businesses reduce pollution and plastic waste.

Product Solutions

Designed for commercial application, eWater Hygiene Systems are available in a standalone and base plant configuration.

eWater Standalone units offer an immediate and flexible standalone solution, while the eWater base plant empowers a whole site with point-of-operation outlets.

Simple Effective Technology

Utilising world leading electrolysis hygiene technology, eWater is produced from only salt, water and electricity.

eWater is food safe and accredited by HACCP, GECA and Australian Organics.

The solutions -

Commercial Grade Disinfectant

A commercial grade disinfectant proven to kill Corona-viruses including COVID-19. Use on all hard surfaces.

Sanitiser

An effective, quick contact anti-bacterial sanitiser for surfaces, hands and food contact applications.

Multi-purpose Cleaner

A multi-purpose cleaning agent that cuts through dirt, grease and grime.

Netural Sanitising Cleaner

A pH neutral, sanitising cleaner that is ideal for getting rid of odours, cleaning floors, bathrooms and other hard surfaces where ensuring a sanitary and clean environment is crucial.

Accredited and TGA Listed

COVID-19 Disinfection

eWater Disinfectant is an ARTG listed and certified organic hard surface disinfectant proven to kill Coronaviruses including SARS-CoV-2 (COVID-19).

Food Safety

eWater is HACCP certified as an approved solution for food service application. Both solutions are safe as a food wash and sanitising solution, and are additionally capable throughout food service environments for equipment and surfaces.

Environmental Choice

eWater is accredited by Good Environmental Choice Australia. This assurance program validates our environmental credentials for those organisations looking for proven and practical sustainable initiatives.

Additionally eWater contributes to green building certifications including Greenstar and WELL.

Australian Organics

eWater is certified by Australian Organics as an approved input for Organic processing.

Perfect across all operations

The eWater Hygiene System is ideal for generating cleaning and sanitising solutions that can be used for a wide range of applications.

For many applications existing cleaning, disinfection or sanitising protocols can be used, minimising the need for operational change.

eWater particularly stands out in applications involving food preparation and processing, but equally matches traditionally packaged chemicals in housekeeping and front of house cleaning applications.

Where you can use eWater

eWater can be used for a wide variety of applications throughout your workplace or home.

Because it contains no harmful chemicals or synthetic fragrances, it is safe to use around staff, customers, students or residents without the risks normally associated with chemicals.

eWater is an effective commercial grade solution for the following applications -

- Hard surface disinfection
- Cleaning and sanitising hands
- Cleaning desks, computers and other equipment
- Cleaning glass and metal surfaces with no streaks
- Cleaning floors
- Cleaning bathrooms and toilets
- Deodorising bins, sinks and drains
- Food contact surfaces including washing & sanitising fruit and vegetables.

With on demand production, eWater provides an endless supply of disinfectant, sanitisers and cleaning solution that will significantly reduce your need for wasteful and harsh chemicals.

In Good Company

At eWater Systems, we are extremely proud of our community of customers. They are pioneering businesses that are making a difference by reducing their chemical footprint and investing in a better alternative that is clean, cost-effective and safe for their staff.

Our customers include **top chefs** and **restaurants** who love the ability to remove harsh chemicals from food and have confidence in the system as part of their food safety plan.

Facilities operators value the safety of the solutions around their staff and the ability to use a single system

across a wide number of applications, making it a cost-effective solution for their contracts.

Aged care, child care and **hospital** customers have confidence that their high standards on hygiene are always maintained via an on-demand system and easy quality control testing.

Specifiers and property developers are engaged with having a solution that supports both the Greenstar and WELL standards for their developments and provides an valuable addition to all buildings.
