- **Meat Mincer Weight** - 106kg

Product Description

The Kolbe SW100 meat mincer is a high performance meat mincing machine constructed in top quality stainless steel to Kolbe's excellent standard of manufacturing and reliability.

The SW100 meat mincing machine is available as a table top meat mincer or a floor standing version with a fixed stand. The large feed pan of the SW100 meat mincer is made without dirt traps and with rounded corners to enable fast and easy cleaning as well as keeping a high level of hygiene.

The meat mincers main drive motor is a powerful 4HP, allowing the meat mincing machine to have a large throughput of 950kg/h at optimal conditions. The stainless steel head is removed from the meat mincer is a matter of seconds due to the quick release tightening handles located on either side.

With the SW100 mincer coming in a 3ph electric supply, this meat mincer is ideal for the busy butcher that requires an easy to use machine but with the reliability and performance of a much larger meat mincing machine.

The meat mincer comes as standard with a **L&W plate** and **knife** as well as a plunger, deflector guard, manual and locking spanner.

Kolbe's mincer and mincer grinder range covers a wide range of sizes for all size operations.
